Customer Reviews

ABRAHAM R.
Global Packing Group

I have known the Octametro company for several years.

The people are very creative, smart and responsible. After I gave them our first project about 10 years ago, they have only delivered nothing but excellence! Even under pressure due to our different expectations, they have always stepped up to the highest level, and always exceededthe task on hand! I would recommend them for any new store design, expo stands and office renovations.

Everything went as we expected!

Congratulate yourself again for the work done. Everyone has been very happy...

CHRISTOPHER JACKSON-ASSOCIATE

Octametro deserves the success they have today!

I helped start up the first office here in the United States My dad owned an advertising agency in North Carolina and gave us our first project. It was a lucky break but it certainly didn't come without its challenges. We had to build on that momentum competing not only with well-established names but with ourselves; we were determined to make the "American Dream" happen and thirty years later, they did just that.
